EASY VIEW 2.0

FEATURES

- **BALANCED VALVE**
- **LIGHT PRESSURE LEVER**
- **ERGONOMIC GRAB**
- **BUILT-IN FILTER**
- **BUILT-IN LEVER LOCK**

The PIUSI EASY VIEW 2.0 is the MCO 2.0 version of the EASY OIL nozzle. Attached to this manual nozzle, suitable for the delivery of a wide range of oils, there is a remote display that shows the count made by the GPV 2.0.

TECHNOLOGY

The key to the dispensing system is the clear dialogue between GPV 2.0 and the entire MCO 2.0 system, plus the wireless communication between the GPV 2.0 solenoid valve and the EASY VIEW 2.0 nozzle. Optimized integration down to the tiniest detail.

ENHANCED ERGONOMICS

The nozzle **design** has been further improved.

PERFORMANCE

UP TO
30 L/MIN

FLOW RATE

70 BAR

OPERATING PRESSURE

ZIGBEE

SYSTEM

CONNECTION

RUGGED CONSTRUCTION

High strength and **performance** are the core **properties** of the Easy view nozzle.

TECHNOLOGY

EASY VIEW 2.0 is a more practical and intelligent nozzle. The large size display shows the dispensing data transmitted on a wireless connection (zigbee) from the associated GPV 2.0. This means the nozzle no longer needs an internal flow meter, resulting in significant weight reduction and less risk of damage.
